MANAGEMENT REFERRALS

We help in cases where an employee’s ability to attend work or their productivity is reportedly being affected by their health. We aim to help you get your employee back to work or have a clear view on if and when they may return.

We deliver clear, independent and commercially focused advice on an employee’s sickness and/or attendance at work.

This enables customers to make effective, low risk management decisions. All your referrals can be made online. Full telephone support from our customer services and clinical team is also available.

HEALTH SURVEILLANCE

We offer health screening that covers both mandatory and HSE legislated health surveillance, as well as best practice:

- Audiometry
- Lung Function
- Serial Peak Flow
- Skin Surveillance
- Eye Screening
- Blood Lead Monitoring
- Biological Monitoring
- Drug & Alcohol Testing
- Pathology Testing
- Hand Arm Vibration Syndrome
- Occupational Hygiene Services - Surveys & Testing
- Safety Critical Medicals
- HGV / LGV Driver Medicals

PRE-PLACEMENT SERVICES

Our pre-placement health assessments can be carried out as detailed questionnaires or face-to-face medicals. These will then advise the employer on the level of fitness for work.

We deliver clear, concise and jargon free information and detail in a timely manner so as not to delay the induction programme.

TRAINING

We offer life-saving training courses, including:

- First Aid at Work
- Mental Health First Aid,
- Fire Warden,
- Defibrillator
- Manual handling
- DSE training
- Stress management

Our courses can be delivered at various locations around the UK, or on your site as a standard certified course, or bespoke courses with certification. We provide all paperwork, certificates, and recalls.

ON SITE PROVISION

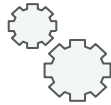

We can provide Technicians, OH Nurses and Physicians at your premises to deliver the services that you require.

Whether you need a mobile unit out for a day or two once or every month, or you are looking for a qualified and vetted OH Nurse, Physician, or Physiotherapist to come on site to provide your Occupational Health Service, we can help.

Collingwoodhealth

flexible occupational health solutions
to match your management needs

CUSTOM

We offer standard and bespoke contract packages with a lot of perks!

We offer a standard easy to use pay as you go service where no contract is required.

We can create a package that works for you with pricing, features, management, and reporting.

We can brand exclusive forms bespoke for your company, and make the process of using Occupational Health as seamless as possible.

ONLINE

We provide online forms and a cloud-based customer portal, making form submission easy, and checking on your ongoing cases simple and time efficient.

Reports are available using web-based technology, and there is always a customer service representative available to answer your questions.

SECURE

We maintain your employees records securely.

With records kept both online and in high security facilities, our data is well managed.

Regular departmental auditing ensures our compliance with all data legislation, as well as full ISO compliance and reporting.

You can rest assured that we keep data under the utmost security at Collingwood Health.

We ensure you are receiving the information you are entitled to, offering you an arms length and unbiased service to manage your employees.

Reports are securely transferred, following the latest digital encryption techniques.
